## The Finest Saddle in the World

In choosing a BROOKS "Butt Leather" Saddle you may be sure that no saddle exists which will give equivalent comfort and reliability.

Despite the difficult years through which we have been passing the supreme quality of BROOKS products has remained unchallenged. This is the result of relentless attention to design, careful selection of materials, and, what is all-important, the constant refusal to accept a lower quality standard as a means of meeting the unsatisfied demand.

The BROOKS reputation for making "The Finest Saddle in the World" was gained and will be retained by adhering to these principles.

A BROOKS Saddle may cost you a little more but it is an extravagance which is, in effect, an economy.
