CYCLES & ACCESSORIES

SIX GOOD REASONS

for buying your cycle and accessories at

1884—1938

CURRYS 54 YEARS RECORD
OF PUBLIC SERVICE

Currys

OVER 200 BRANCHES LTD.

1 GREATEST VALUES

Bulk buying for our 220 branches enables us to buy RIGHT, and the enormous savings thereby effected are not retained to swell our profits but are PASSED ON TO OUR CUSTOMERS. Thus, at Currys, you get BETTER QUALITY for LESS MONEY. For proof, compare our merchandise and prices! Owing to continually rising markets, the prices herein shown are subject to revision at any time. You can be assured, however, that Currys' values will ALWAYS be the keenest in comparison with others.

2 WIDEST CHOICE

Our vast resources enable us to maintain at all times an unrivalled range of goods in **fresh and faultless condition**. If you are considering the purchase of a new cycle you will find a comprehensive selection of four leading makes of machines—RALEIGH, HERCULES, Curry and Mead. And the same holds good for accessories: you will find a bigger variety at Currys. At many shops you are unable to obtain the exact article you want and you are reluctantly forced to wait for delivery or take an unsatisfactory substitute. At Currys you are practically certain to obtain the article you want **at the moment you want it and at the price you want to pay.**

3 EASIEST TERMS

Ask your local Currys' Manager for details of our famous "Personal Purchase Plan"—the simplest, fairest and most confidential Easy Payment system in the country. Its wide and "elastic" scope covers Cash Rebates to prompt payers, special Short Period Credit terms, by means of which you can purchase on credit at only fractionally more than net cash price. In short, Currys' Easy Terms can be adjusted to fit your own requirements—not "nearly" but EXACTLY!

4 BEST SERVICE

Currys' growth from one small shop to a great national organisation is no "romance." The business has been built upon the solid foundation of better values, scrupulously fair dealing, and PERSONAL SERVICE. Our interest in a customer does not end with the completion of a transaction; we are also concerned with the continued efficiency of the article purchased, be it large or small. Should it at any time require attention, you may be sure of our willing assistance and co-operation in rectifying the trouble.

5 CONVENIENCE

Our range of goods is not confined to Cycles and Accessories. We have become known throughout the land as Britain's Greatest Radio Specialists. Our Radio Service is definitely second to none and our agencies embrace most of the leading makes. We carry, also, extensive stocks of household and electrical goods; sports, camping and rambling equipment; clocks and watches; vacuum cleaners; sewing and washing machines; prams and folders; toys for children of all ages, etc. If your nearest Currys' depot is not so convenient as you would wish, you may send your enquiry or order, whether for cash or terms, to our Head Office. The goods required will be despatched immediately and CARRIAGE PAID.

6 SATISFACTION

Contented customers are our best advertisement. Accordingly we make every effort to ensure that there shall be no cause for complaint with purchases at Currys. In the event of any goods not giving complete satisfaction, we undertake to **refund the purchase price without question**—provided, of course, that the goods are returned unsoiled. Could anything be fairer?

Head Office : **Great West Road, Brentford, Middx.**

The CURRY SPEED SAFETY MODEL

This is the ideal mount for traffic riding with its specially low-built frame eliminating the need to dismount whilst you are stationary. The low centre of gravity makes for much greater stability, too, with far less tendency to skid.

Available on easy terms through Currys' Personal Purchase Plan.

CURRYS FOR RALEIGH THE ALL-STEEL BICYCLE

The name of Raleigh is known the world over as a symbol of everything that is best in modern cycle production. Perfect craftsmanship and careful attention to every detail of design and finish is the secret of the reliability and service given by every Raleigh machine. Though moderate in price, Raleigh cycles may be relied on to give maximum satisfaction in use, and are still doing useful service when cheaper machines have fallen by the wayside. Most of Currys' branches keep comprehensive stocks of Raleigh machines; you need only see them to be convinced of their unrivalled quality.

THE RALEIGH DAWN SAFETY MODEL

A beautifully finished and dependable mount, with specially low build, enabling both feet to be placed on the ground without moving from saddle. Equally suitable for business riding or week-end touring and build to withstand any amount of hard wear.

- Frame:** 22in. Low bottom bracket. 10½in. Ground clearance.

DUNLOP TYRES

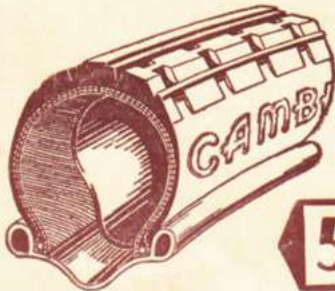

Owing to pressure of space we are unable to show every tyre in the Dunlop range. If your favourite brand is not illustrated here, just ask for it by name—we are sure to be able to supply from our comprehensive stock.

3/9

21003. A special offer to commemorate the Jubilee of the famous Dunlop concern. The Jubilee tyre is supplied with a deep and distinctive tread and we can enthusiastically recommend it as real value for money.

Sizes—26" x 1 1/4", 1 1/2", 1 3/4"
28" x 1 1/4",

5/-

THE "CAMBRIDGE"

11004. An excellent medium weight tyre at a popular price. It has a neat and sturdy tread and its appearance and performance leaves nothing to be desired.

Sizes—28" x 1 1/4" 26" x 1 1/2"
26" x 1 1/4" 26" x 1 1/2"
Beaded: 28" x 1 1/4", 1/- extra

7/-

THE "ROADSTER"

11006. The ever-popular Dunlop favourite with the triple stud tread. For reliability and long wear the Dunlop "Roadster" has never been equalled.

Sizes—
Wired: 26" x 1 1/4", 1 1/2", 1 3/4"
28" x 1 1/4", 1 1/2", 1 3/4"
Beaded: 26" x 1 1/4", 1 1/2"
28" x 1 1/4", 1 3/4", 1/- extra

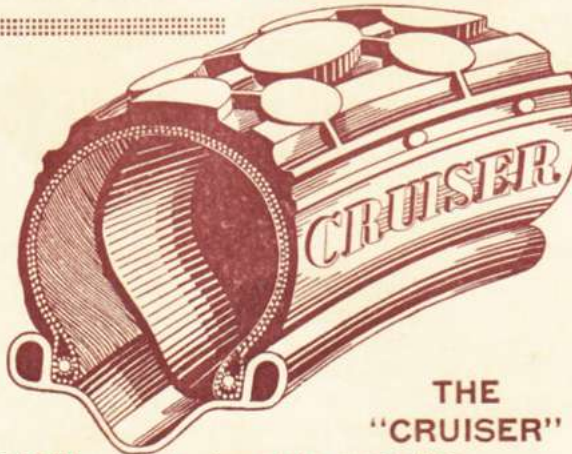

6/6

THE "CLIPPER" CARRIER

11008. Specially made for carrier cycles and built to stand up to very heavy usage. The tread and canvas are exceptionally thick.

Sizes—
Wired: 26" x 1 1/4", 1 1/2"
28" x 1 1/4",

THE "CRUISER"

21001. Introduced to meet the demand for a low-priced tyre, yet in every way worthy of the famous reputation. A sound tyre that is a real bargain at the price.

Sizes: Wired—28" x 1 1/4", 26" x 1 1/4", 1 1/2", 1 3/4"
Beaded—28" x 1 1/4", 1/- extra

3/3

THE "SILVER" SPRITE

7/6

11010. A development of the famous "Sprite" tyre which won the C.T.C. Award for the most notable advance of the year. Easily the fastest and liveliest of its type, with a ribbed tread and handsome silver side bands.

Weight 16 ozs.
Sizes—26" x 1 1/4", 1 1/2"

THE "CHAMPION"

21003. Made to the usual Dunlop standard of quality but priced extremely reasonably. Available in red or grey.

Sizes—28" x 1 1/4" 26" x 1 1/2"
26" x 1 1/4" 26" x 1 1/2"
Beaded: 28" x 1 1/4", 1/- extra

4/-

8/-

THE "TANDEM"

11012. Strongly constructed to withstand the extra stresses imposed by tandem use yet retaining a high degree of elasticity and speed. The deep tread ensures adequate grip on the greasiest surface.

Sizes—
26" x 1 1/4", 26" x 1 1/2"

TUBULARS AND SPRINTS OBTAINED TO SPECIAL ORDER

7/-

THE "SPEED"

11013. A fast and lively tyre which enjoys great popularity with those who require a slightly heavier tyre than the "Sprite." Available in translucent, black or red with translucent sides.

Sizes—
26" x 1 1/4", 26" x 1 1/2"

3/6

THE DUNLOP JUNIOR

11030. Specially designed for junior and toy cycles and fully as reliable as its grown-up brothers in the standard Dunlop range.

Sizes—12" x 1 1/4" 18" x 1 1/2"
14" x 1 1/4" 20" x 1 1/2"
16" x 1 1/4"

3/6

THE CHAMPION JUVENILE

21028. A perfect miniature of its full size companion, with a tread that is specially safe and reliable. Outstanding value for money.

Sizes—24" x 1 1/4" 24" x 1 1/2"

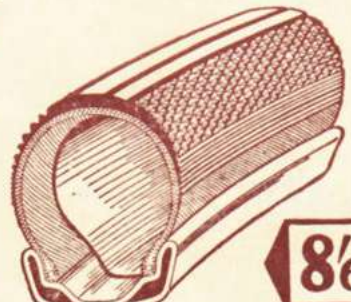

6/-

THE "SPORTS"

11007. No other tyre has ever equalled the popularity which the "Sports" enjoys among clubmen. It has a distinctive diamond tread that holds the road and allows fast cornering. Supplied in black or red.

Sizes—
Wired—26" x 1 1/4", 1 1/2", 1 3/4"

8/6

HIGH PRESSURE

ROAD RACING

11011. Built for high-pressure inflation, this is the tyre for the cyclist "all out for speed". Supplied in two tread designs—file pattern or file with ribbed centre. A notable introduction which has met with a keen welcome from all racing enthusiasts.

Sizes—26" x 1 1/4" 27" x 1 1/4"

TYRES AND TUBES

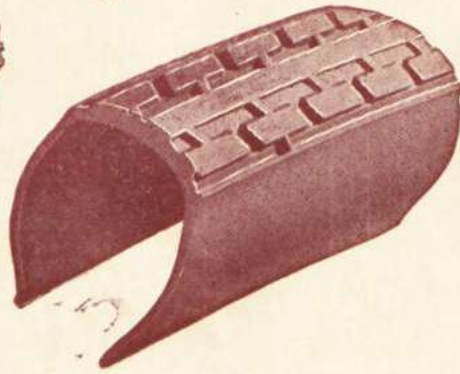

Take advantage of these
Exceptional Offers!

TWO and THREE SPEED GEARS

Hills seem to flatten out and riding becomes twice as easy when your cycle is equipped with a 2-speed or 3-speed gear. Let our experts advise you on the gear best suited to your purpose.

STURMEV ARCHER 'K' 3-SPEED HUB

32260. The 3-speed gear that 'makes cycling easy.' The gears, which are always in mesh, are dustproof and the whole mechanism runs in oil. Provides an increase of 33 1/3%, and a decrease of 25% from normal.

23/9

32261. KSV Hub. Medium ratio 3-speed, giving 16.6% increase and 14.3% decrease.

23/9

32262. KS Hub. Close ratio 3-speed with 12.5% increase and 11.1% decrease from normal.

23/9

32263. AR Hub. Ultra close ratio 3-speed, designed specially for the racing man and hard rider. Provides an increase of 7.24% and decrease of 6.76%, approximately equivalent to a difference of one tooth up or down on the hub sprocket.

29/-

STURMEV ARCHER 'T' 2-SPEED HUB

32266. A remarkably neat gear providing a decrease of 25% from normal and adding only 9ozs. to the weight of the cycle. Supplied with free-wheel, wing nuts and patent quick release connection.

19/6

32267. TF Hub. Similar to the "T" hub but with fixed sprocket. Popular with clubmen and sports riders.

19/6

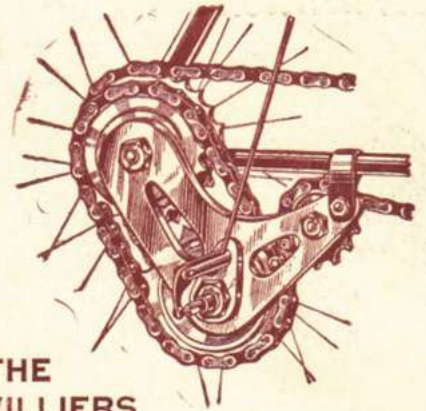

32264. KBC Hub. 3-speed gear with internal expanding hub brake. For cable operation.

32/6

32265. KB Hub. Similar to KBC but for use with roller lever brakes.

32/6

EVERY TYPE OF STURMEV ARCHER HUB SUPPLIED

THE VILLIERS TWO-SPEED GEAR

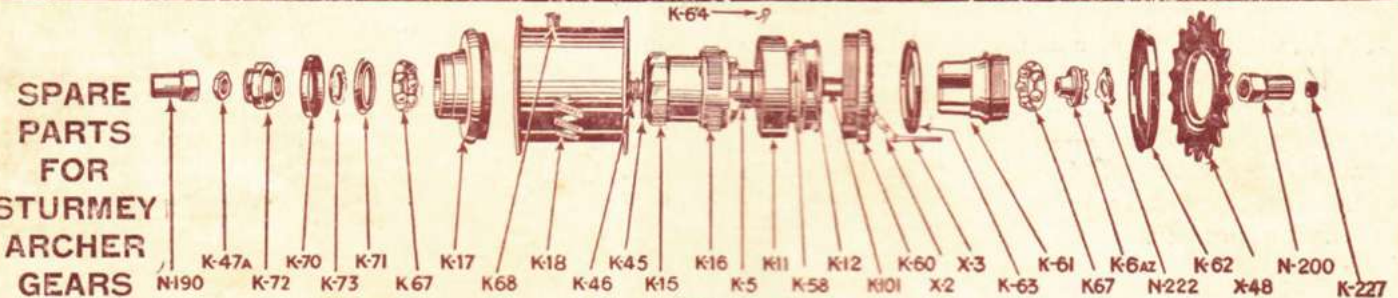

22251. An entirely new type of gear which gives remarkably smooth running due to the chain always being in line. The gear change is positive and instantaneous whether pressure is being applied to the pedals or not. For solo machines

15/-

For tandems

For solo machines 25/-
 For tandems 28/-

25/-

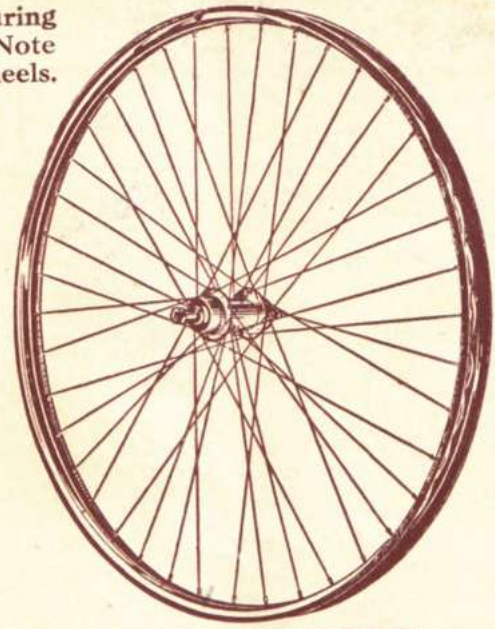

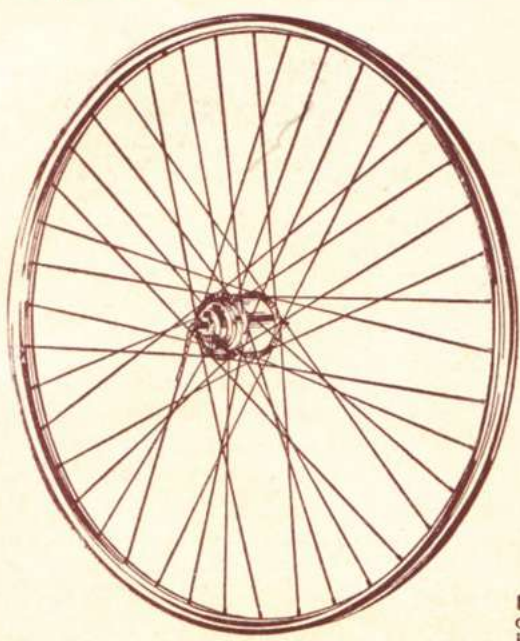

HOW TO FIND THE GEAR OF YOUR CYCLE

Take the diameter of the back wheel in inches and Multiply it by the number of teeth on the chain wheel. Divide the result by the number of teeth on the hub sprocket.

Example:—A 26ins. back wheel, 48 tooth chain wheel and 16 tooth hub sprocket: 26 x 48=1248 div. by 16=78

WHEELS

HOW TO PREVENT YOUR ACCESSORIES FROM BEING STOLEN

File the screw heads on your accessory fixings as shown in the sketch. A screw so treated can be tightened to its fullest extent yet it will not be possible to unscrew it with a screwdriver. But, remember, if you want to remove the accessory yourself, you will have to file the screw head right off.

TOURING BAGS

Every cyclist needs a touring bag—from the business rider who carries his cape and tools, to the tourist who needs a bag for week-ends and holidays. Choose yours at Currys where prices are lowest.

21508. This handsome roomy bag with large side pocket is offered at a remarkably reasonable price. It has a good capacity and is fitted with girder top suspension. Finished in attractively grained cloth and equipped with saddle and seat pillar straps. Approximate size 8½" x 7½"

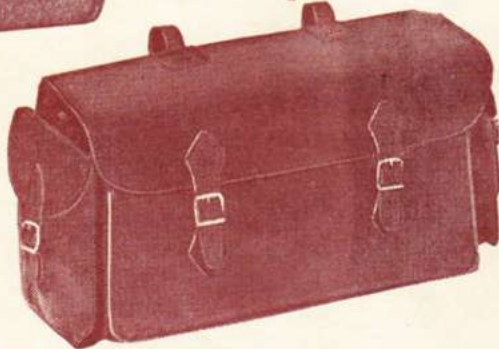

1/11

31505. A special bargain in lightweight bags made from serviceable leather cloth and neatly finished. Ideal for holding cape or tools. Nothing to compare at the price. Approximate size 8½" x 6½"

1/-

A BARGAIN OFFER

21506. A useful bag of larger capacity, for the everyday rider. Manufactured from good quality leather cloth, and fitted with girder top suspension. Equipped with two front straps and including two saddle straps. Approximate size 8½" x 4½" x 7½"

1/6

21509. Coloured piping at the seams of this bag gives it a very attractive appearance and the design makes for ample capacity. Two outside pockets are included, and the usual saddle and seat pillar straps are fitted. This is a bag which we can thoroughly recommend as being unusually good value for money. Approximate size 11" x 7" x 4"

2/6

21510. A capacious touring bag which has been greatly improved since last year and now has two large side pockets. It is carried out in stout leather cloth and incorporates the famous girder top suspension. The saddle straps are fitted with special metal cape strap holders and there is sufficient space for a week-end's kit. Approximate size 12½" x 6" x 7"

2/11

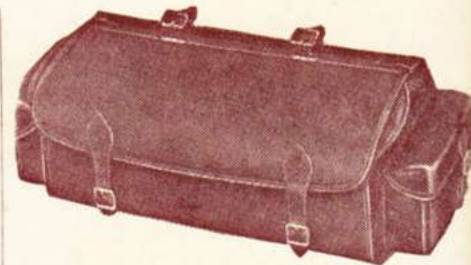

Look at the price of this LEATHER BAG

BROOKS' HOLDALL SADDLE BAG

31554. A super leather cloth touring bag of extra large capacity with two side pockets and one big pocket at back. A special feature is the looped metal strengthener giving easy grip for carrying purposes. Saddle straps and cape straps are included. Approximate size 13" x 8½" x 6½"

10/6

SUPER TOURING BAG Exceptional Value!

21553. Many riders prefer to pay a little extra to obtain the longer service given by a leather bag. Currys have been fortunate in securing an excellent bag incorporating two good size side pockets and girder top suspension at a price little more than you would pay for a cloth bag of similar quality. This offer can only be made whilst stocks last, so visit your local branch and secure yours now. Approximate size 12½" x 8½" x 6½"

7/11

21511. This is the bag we recommend for all keen cyclists. It is smart and serviceable and is now fitted with strong internal stiffeners which keep it in shape under all conditions. In addition it has girder top suspension, leather reinforcements at back, two hooded side pockets and metal cape strap holders—a combination of features that will not be found in any other bag at less than double the price. Approximate size 12½" x 8½" x 6½"

3/11

WHAT IS GIRDER SUSPENSION?

Girder suspension is a special feature of Currys' touring bags which ensures that they hang horizontally and with their weight evenly distributed. It consists of a metal bar running across the whole width of the top of the bag and firmly rivetted to it, with the saddle straps passing underneath

We strongly recommend

MIDLAND

TOURING BAGS

11500. The Midland 763 touring bag. A smart and capacious bag of good quality leather cloth with two large outside pockets, metal stiffener across top, and metal cape strap holders. At this very moderate price it will make a strong appeal to every cyclist who appreciates good value.

Approx. size 12½" x 9" x 6½"
Complete with cape straps

5/-

11501. The Midland 180. This deluxe leather cloth bag incorporates a roomy front pocket in addition to the two side pockets and is specially shaped to afford maximum capacity. Suspension is from a metal bar running across the top of the bag and there is a strong leather reinforcement at the back. An outstanding offer for the discriminating cyclist.

Approx. size 12½ x 9 x 6½
Complete with cape straps

8/3

11512. The Midland 765. A super quality shaped bag made from heavy double proofed material grained like real leather. Includes two side pockets, a non-sag stiffened front and metal bar suspension.

Complete with cape straps

6/6

After enamelling your cycle use a lining transfer. It gives that 'factory finish' effect. Full instructions with each set.

12244. Single or double lines. In one colour. Per set. 9d.

12245. Double lines with two colours. Per set. 1/-

32247. Transfer varnish. Per tin. 2d.

"CHEMICO" HAND SOAP
Cleans the greasiest hands in a twinkling.

11859. Medium tin 4d.

11860. Large tin 6d.

A USEFUL BRAKE TIP

To prevent your cycle running away when left on a steep hill, fit a small leather strap and buckle over the handle bar and brake lever, so that it can slide up as far as the handle grip, at the same time

pulling up the brake lever. This is also useful in preventing the cycle falling over when parked on the level and can also be utilised when descending a long hill.—From "The Cyclist"

ADJUSTABLE STRAP

A MONEY-SAVING OPPORTUNITY

41240 Our exceptionally large purchases make it possible for us to offer this reliable and serviceable all-steel chain at a remarkably low price. You will find nothing to compare at this figure elsewhere, yet you can rely on getting excellent service and long wear. A new value-standard in cycling chains.

1/4
(FOREIGN)

(FOREIGN)

THE "HEAVY DUTY" CHAIN

11251. A new addition to Currys' range of chains. Accurately manufactured from finest quality steel with perfectly tempered toughened rollers. Combines flexibility with capacity. Stands up to hard wear and gives a smooth and silky drive. This is a chain we can thoroughly recommend.

QUALITY WITH ECONOMY

21241. A high grade chain manufactured from correctly tempered hard wearing steel. Well known DNB make. Will give years of unflinching service. The chain for the enthusiastic cyclist who requires a first class article at a moderate price.

1/11
(FOREIGN)

The transmission is the heart of your cycle—that is why it will pay you to make certain of quality when you are buying chains and cogs. If you suspect wear in YOUR transmission bring your cycle to Currys and let us renew the worn components; you will be amazed at the increase in liveliness and ease of pedalling afterwards.

11243. The Renold Chain. A super quality chain for the cyclist who is content with nothing but the very best. Gives beautifully smooth drive and unequalled long wear.

4/3

THE COVENTRY CHAIN

21242. The chain that bears this famous name needs no recommendation on our part as it is known the world over for its efficiency and reliability. A first rate British product and guaranteed to give complete satisfaction.

Procure a glass bottle with a wide mouth (about one pint capacity) and fill three quarters full with paraffin. Attach a piece of string to the chain and suspend it in the bottle as shown.

Cork the bottle and shake well for a few minutes. Then withdraw the chain by the string and drain and dry thoroughly. Afterwards oil in the usual way.

CYCLE LAMPS

The prices of all Miller Lamps include Battery & Bulb.

Miller lamps are famous for value and service. Constant attention to the cyclist's needs has been the foundation of their unrivalled reputation. Every Currys' branch carries a full range for your inspection.

11351. Model 3L3. A handsome square pattern lamp with black enamel finish, specially treated to prevent rusting, and new design chromium plated brass front with new hasp fastening. The special "broad-beam" lens gives a long and wide beam with side warning. Screw down on-off switch.

3/-

11287. Model 4A4. A re-designed square pattern lamp with extra large diameter silvered reflector and chromium plated brass front. This lamp is fitted with a Broadbeam lens giving a long and wide beam with side warning, and is finished in high gloss scratch-proof black enamel.

3/9

11353. Model 242. An important feature of this lamp is the patented self-locking bracket. It has a large diameter lens with ribbed glass and new hasp fastener. The finish is of scratch proof black enamel and a screw down on-off switch is fitted. The lamp is storm proof and specially treated to prevent rusting.

3/3

11350. Model 222. A very moderately priced cycle lamp with glossy black enamel finish and deep chromium plated hasp fastening rim. It is storm proof and rust proof, and will give unfailing service over an extremely long period. We strongly recommend this fine value lamp.

2/6

11288. Model 6A6. An unusually handsome and re-designed streamline lamp with special lens giving long and broad beam with wide warning, and incorporating a quick release hinged front of brass, heavily chromium plated. 3-way streamline switch-bright, dim and off. High gloss scratch-proof black enamelled finish.

6/-

G. E. C. BATTERY LAMP

11295. A new comer to the ranks of cycle battery lamps but second to none in efficiency and finish. Fitted with efficient silvered reflector and incorporating special waterproof switch. Handsome black enamel finish. Includes carrying handle. Complete with battery and bulb.

2/6

11289. Model 5A5. A new streamline lamp with quick release chromium plated front efficient silver plated reflector and screw down on-off switch. Rust-proof and finished in scratch proof black enamel. Competitive value.

5/-

EVER READY

CYCLE LAMPS

BRITAIN'S BEST BATTERIES

21336. Model 2036. The wide reputation which this lamp has earned for itself is entirely due to the splendid value for money which it offers. It has a screw-on front, screw type switch and carrying handle, and is finished in stove black enamel. Supplied complete with long-life battery and bulb.

2/6

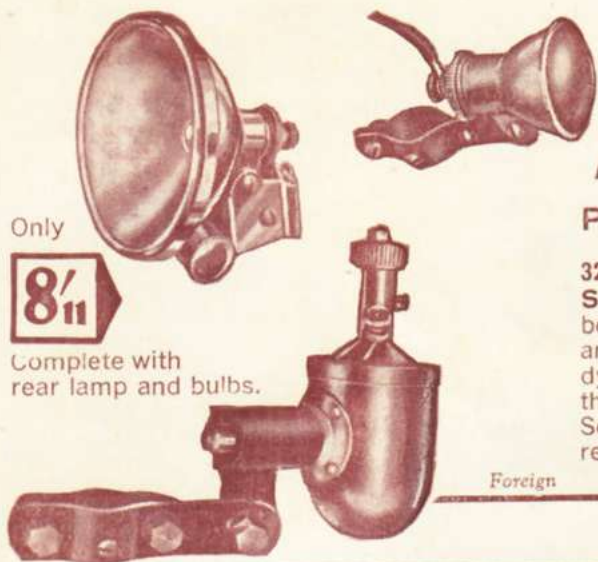

21338. Model 2436. Similar to 2036 in design but constructed from best quality brass, heavily chromium plated throughout. A lamp of remarkably smart appearance and possessing a standard of efficiency quite without equal at the price. Complete with battery and bulb.

4/-

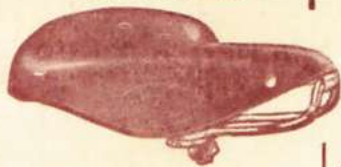

21530—Model B8 Loop front roadster saddle with 4-wire girder undercarriage and two rear springs. Gives superlative comfort at a very reasonable price.

4/3

When altering the position of saddles and handlebars it is often found that the stems are rusted up and refuse to come out of the frame tubes. To overcome this difficulty, soak a piece of rag or cotton wool in

paraffin and tie it round the stem about 2ins. from the frame. Leave it for about a quarter of an hour and the stem will then easily come out provided that the clamp bolt is loosened.—From "The Cyclist"

JUVENILE SADDLES

11536. "Mansfield" Juvenile Saddle. Suitable for tricycles and pavement cycles. Superlative value. British made.

1/11

11537. 3-coil Juvenile Saddle. A perfect small 3-coil model of a suitable size for junior and juvenile cycles. made to stand really hard wear. British made.

12223. Celluloid covered bands, black or brown. 4 1/2 d.

HANDLE AT APPROX 90° TO BRISTLES.

CLEANING YOUR HUBS.

Most of us, when cleaning our cycles, find difficulty in removing the dirt from the hubs and spoke ends. A handy instrument to simplify this job is an old tooth brush. This should be held in steam for about 2 minutes to

soften it, and the handle should then be bent until it is at an angle of 45° to the bristles. It will then be found easy to get at the awkward crevices, when it is almost impossible to do the job with an ordinary cloth. From "The Cyclist"

HOW TO GET A PERFECT FINISH. Make certain the air is quite free from dust. Scrape off all traces of previous enamel, rust, dirt, etc. Apply one coat and rub down with fine glass paper when dry. Apply second coat and leave to dry.

Only by regular oiling will you get the best out of your cycle. It is unfair to expect constant easy running unless your oil-can is frequently in use. Currys' range of oils and cans is unrivalled both in variety and value.

CAPEES

OILSKIN CAPES

Riding in the rain can be quite enjoyable if you are properly 'dressed for the part'. You can place complete reliance on wet weather equipment purchased from Currys—and you can be sure of getting value as well

with lined collar

with zip fastener

21896. Good quality oilskin cape, light in weight with oiled seams and zip fastening front. The big feature of this cape is a velvet lined collar, preventing chafing and keeping the neck dry. In black or gold.

11892. A 42" oilskin cape cut on specially generous lines to 42" length with roomy skirt. Zip fastening front and high collar. Fully guaranteed against fair wear. In black or gold.

EXCEPTIONAL VALUE

31894. Lightweight oilskin cape with oiled seams throughout.

3/6

Full cut to ensure comfort. Press stud fastenings. A bargain that should not be missed. Available in black or gold.

6/11

BELSTAFF
"HARDRIDER"

8/11

21891. As advertised in the cycling press. The most popular branded cape on the market. Renowned for its wet-resisting qualities and durability. 43" length. High storm collar and reinforced front. In black or gold.

4/11

SUPER
QUALITY
OILSKIN
CAPES

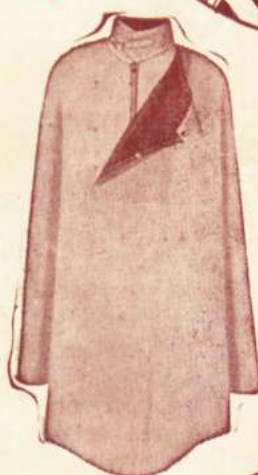

TEXTURE
CAPES

31097. A luxury cape for those who must have the very best. Cut very fully, with velvet lined collar. Buttons up diagonally preventing wet getting in. Offered in black or gold.

12/6

31888. Very keen value in single texture capes of special lightweight sheeting. 42" long with button front. Priced to suit the lightest pocket.

3/11

A NEAT CAPE HANGER

21893. The "Dutton" Cape. A new oilskin model with velvet-lined wrap-over front, covering the Zip-fastener opening, and making the cape absolutely watertight. Velvet lined collar, with adjustable strap. In gold only.

10/6

11890. Extra strong quality single texture cape with fully taped seams and zip fastening front. Very amply cut. A cape that will give years of useful service.

6/11

31889. A single texture cape of waterproof twill with fully taped seams and zip fastening front. Can be put on or taken off in a couple of seconds.

5/11

SLOTS CUT IN
EACH HANGER.

Here is quite a simple method of preserving capes and leggings. Buy two cheap coat hangers—they cost only a few pence. One should have a bar and one should be plain. Take out the hooks and cut a slot in the top of the one with a bar and a slot in the bottom of the one without. The two hangers can now be fixed together at right angles. Re-insert one of the hooks and you will have an "umbrella-type" of hanger that will open the cape all round. The leggings should be hung over the bar.

From "The Cyclist"

LEGGINGS

An amazing offer of reliable OILSKIN LEGGINGS

31905. Well-made and serviceable oilskin leggings with button sides. Extremely light in weight and take up very little room in the bag. A real bargain at the price. In black or gold. **2/11** Per pair

21908. De-luxe oilskin leggings with oiled seams and **BUTTONHOLES REINFORCED WITH LEATHER.** Extremely hard wearing. In black or gold. Per pair **8/6**

WITH ZIP FASTENERS

11907. Very good quality oilskin leggings with zip fastening sides making it easy to slip them on and off in a jiffy. Available in black or gold. Per pair **6/6**

TEXTURE LEGGINGS

at a very low price.

31901. Light-weight single texture leggings of cloth sheeting quite showerproof. Fitted with button sides. Value unobtainable elsewhere. Per pair **2/11**

31903. Strong and well made leggings of single texture twill with fully taped seams and zip fasteners sides. Extremely fine value. Per pair **4/11**

BELSTAFF "HARDRIDER"

21906. Super value oilskin leggings with special reinforcement at heels and inside gussets. The choice of the discriminating cyclist in black or gold. Per pair **5/-**

SLIP-ON WALKING LEGGINGS

21940. Neat and practical slip-on leggings which can be rolled up and put in the pocket. Ideal for ramblers and others. Available in texture or oilskin material. Per pair **3/6**

SOU'WESTERS

21895. Made of finest quality oilskin. Can be had in either black or tan. Deeply cut to prevent water running down the neck. Supreme value. Per pair **1/6**

A New Idea In Cycling Leggings

21941. Super quality leggings manufactured from strong black beaver-teen material. Will wear for years and give sterling service. Per pair **6/11**

21902. Single texture leggings with latest pattern clip fastening. Fully taped seams and leather foot straps. Ample cut. Per pair **4/3**

CURRYS STAND BY THE GOODS THEY SELL

OILSKIN SUITS

A Suit at the price of a Single Garment!

31943. Only our enormous turnover enables us to make such an offer as this. The suit comprises cape, leggings and sou'wester, all thoroughly reliable and serviceable. Just what you have been looking for. Complete **6/11**

21945. Full size oilskin suit, of finest quality oilskin material. Very dependable and a bargain at this price. **9/11**

31942. Youth's oilskin suit 34ins. or 36ins. cape length **5/11**

BELSTAFF "EVERDRY"

21944. A high grade oilskin suit made from finest quality materials throughout. Comprises cape, leggings and sou'wester. Perfect for business or pleasure riding. As nationally advertised. Complete **11/9**

BELSTAFF "HARDRIDER"

21899. Super quality oilskin suit. Made from finest Egyptian cambric and unrivalled for rain resistance and long service. Supplied in gold, black or white. Complete **13/11**

21904 Extraheavy quality double texture twill leggings. With clip fastening and strong instep chains. Ideal for hard weather riders and also very suitable for motor-cyclists. Per pair **6/11**

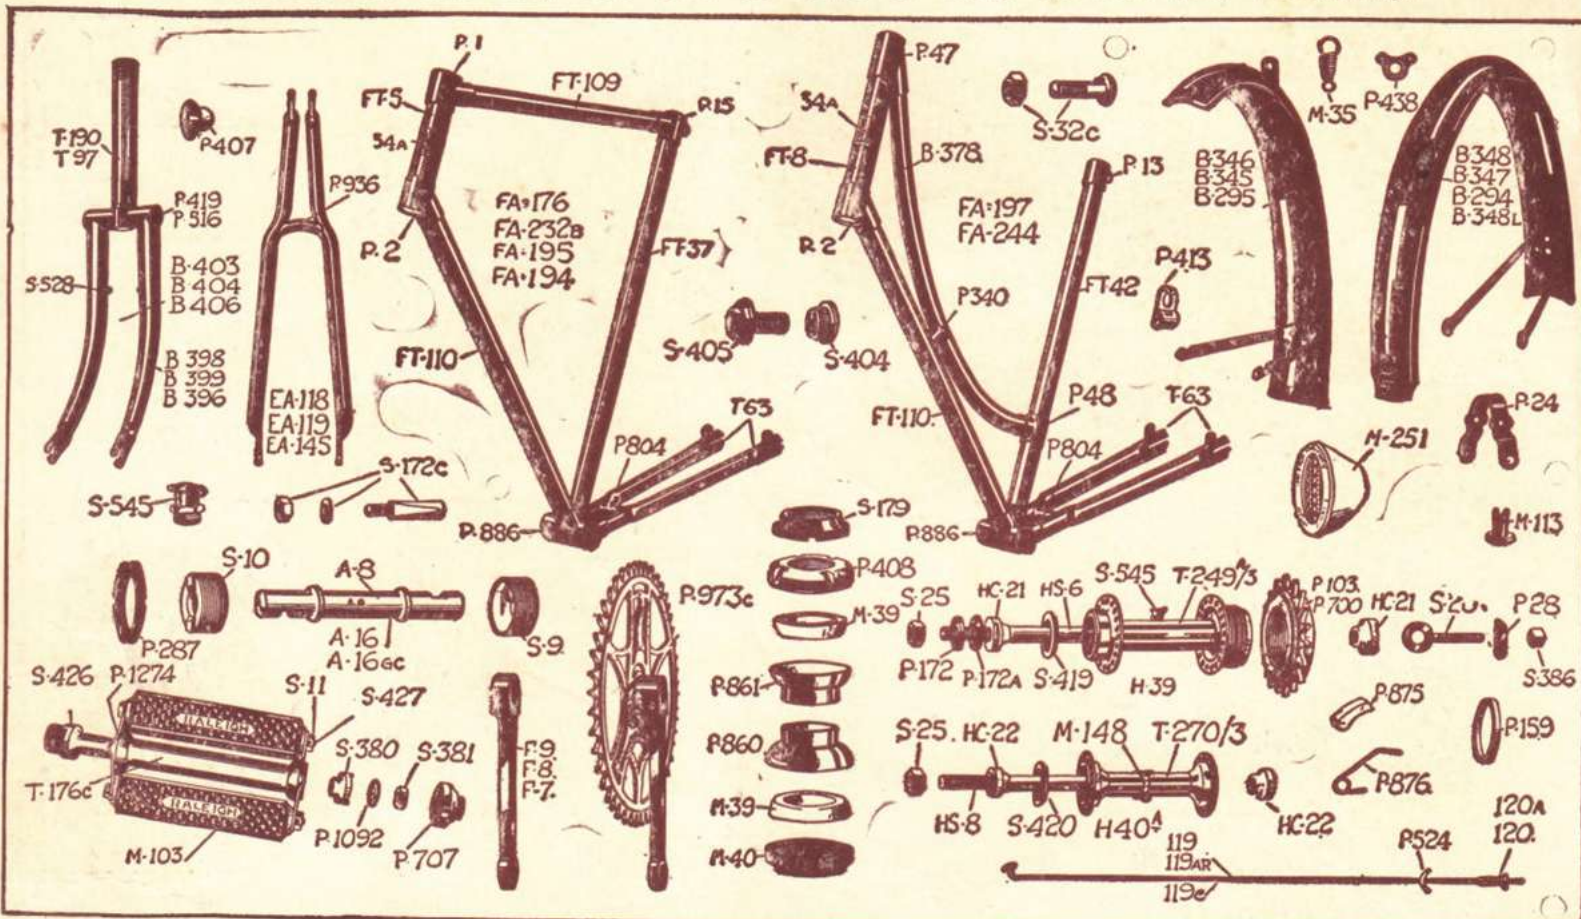

It is most important that waterproof capes and leggings should be kept away from heat; never dry them in front of a fire. On the other hand they should never be kept

tightly rolled up when wet; after a ride in the rain, shake off as much moisture as possible, and hang them up to dry in a cool airy place.

How to preserve your cape and leggings

GENUINE RALEIGH SPARE PARTS

When spares are needed for your Raleigh, make certain you get genuine Raleigh parts. Only in this way can you be sure of long service and reliability.

SADDLE PILLARS

11816. Finest quality metal, heavily nickel plated 10 1/2d.

It is sometimes difficult to unscrew a bulb from a headlamp or from the rear light incorporated in dynamos. People with stumpy fingers often experience this trouble. Here is a hint which will overcome this difficulty.

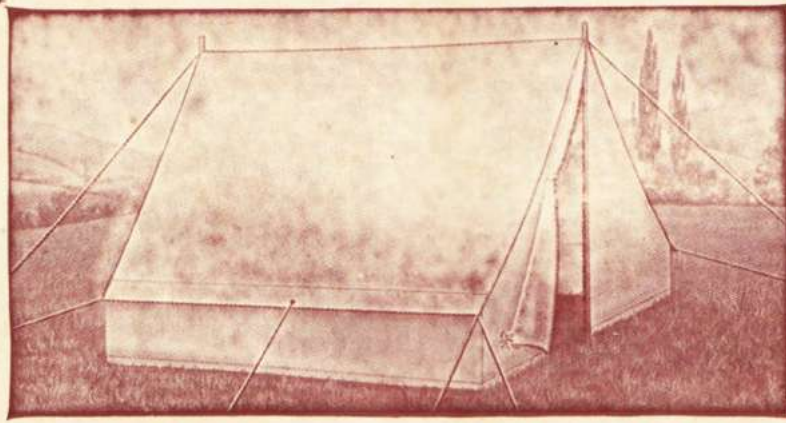

Stick a small piece of insulating tape on the surface of the bulb and this will provide sufficient grip for the fingers to enable the bulb to be removed easily.

TENTS

THE "SPECIAL"

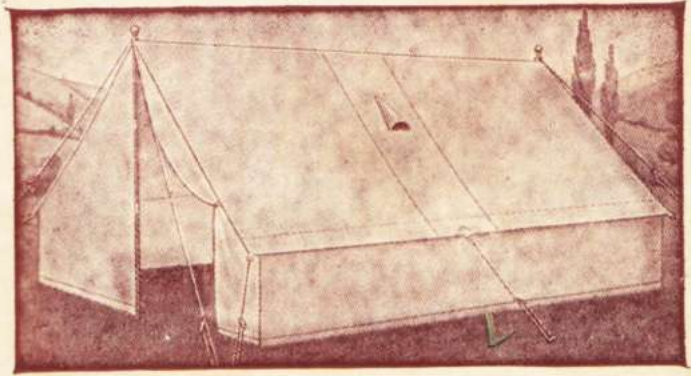

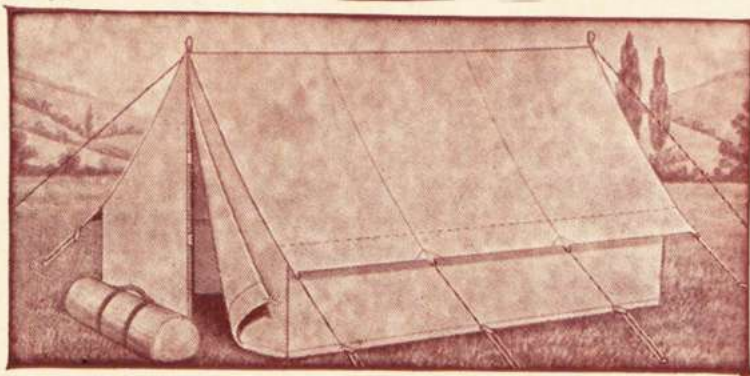

32889. A remarkable offer which brings camping within the reach of all. This tent is made from exceptionally light fabric and is large enough to hold two people. Very simple to erect. Length 6', width 4'3" Height 3'6" with 6" walls. Complete with pegs, poles and guy lines, and packed in water-proof carrier.

8/6

ASK FOR OUR SPECIAL TENT CATALOGUE

Currys are specialists in the supply of all types of tents. The most popular sizes are carried in stock, but if you have any special requirements the tent you need can be obtained for you at very short notice. Both in value and variety Currys' range of tents is quite unequalled.

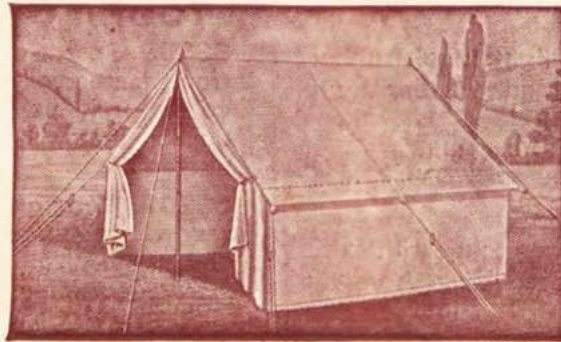

MODEL No. 1

32888. A rather larger tent allowing ample room for two people and specially sewn with super strengthened thread to withstand heavy wind strain. An excellent tent for the camping cyclist or rambler. Length 6'6", width 5', height 3'6" with 9" walls. Complete with pegs, lines and runners and packed in compact valise.

In green Willesden Cloth (rotproofed) 22/-

12/9

WILLESDEN PROOFED CLOTH is treated by a special process which renders it absolutely impervious to rot and mildew, and should not be confused with ordinary green-dyed cloth.

MODEL No. 2

32890. A first rate roomy tent that will sleep two people in comfort with ample floor space for kit, and will accommodate three if necessary. Made from super quality cloth with overhanging eaves and ventilated sides. Length 7', width 5', height 4' with 1' walls. Complete with all accessories and packed in stout waterproof bag.

In lighter cloth 16/11

In green Willesden Cloth (rotproofed) 27/6

MODEL No. 65

32891. This tent has been introduced into our range for the first time to meet the demand for a lightweight model which will sleep three people in comfort. The extra height of the walls and the greater headroom of this tent make it exceptionally comfortable. Complete with all accessories. Length 6', width 6', height, 6' with 3' walls. Packed in special compact carrying bag

In Lighter Cloth 19/6

In green Willesden cloth (rotproofed) 32/-

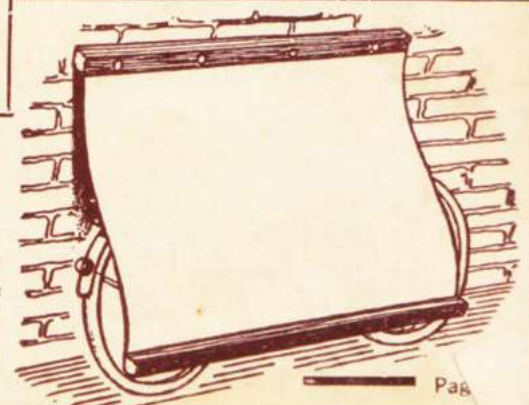

24/6

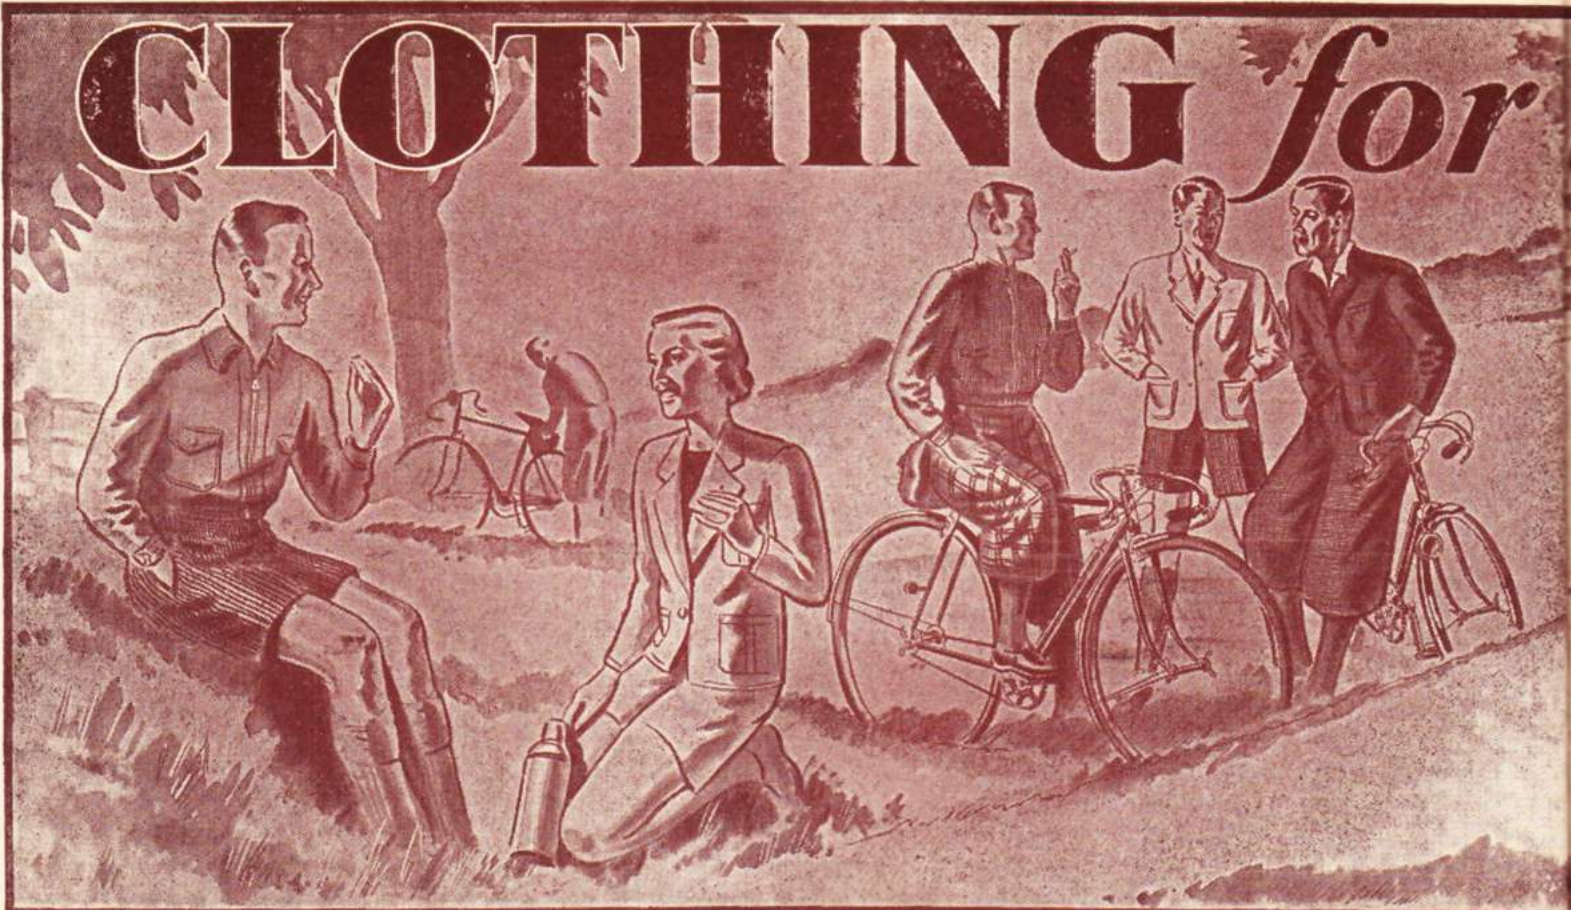

SIMPLE CYCLE ACCOMMODATION

Take a large piece of canvas or one of the groundsheets described above, size 7'x5' Nail stout pieces of wood to the upper and lower edges and then nail the upper edge to a brick wall (with plugs) in the manner illustrated. The loose end is then draped over the cycle and provides a waterproof cover taking up a minimum of space.

POCKET LAMPS and TORCHES

EVER READY "SNAPLITE"

17265. E.R. No. 2250. Has the same action as a petrol lighter and is about the same size. Supplied in a range of attractive cellulose colours. Bulbs and refills easily fitted. A wonder of neatness.

Complete with battery and bulb

1/6

EVER READY "MIDGET" POCKET LAMP

17271. E.R. No. 1679. The smallest lamp in the world—just a little bigger than a matchbox. A midget in size but a giant in efficiency. Covered in attractive seal grained leather. Just the thing for your handbag.

Complete with battery and bulb

1/6

Amazing Value! RELIABLE BULLSEYE POCKET LAMP

37102. A special offer of strongly made torches with metal case available in a variety of attractive coloured finishes. The bright parts are plated and a sliding switch is incorporated. The large and deep bullseye lens gives a very effective beam.

Case only

6^p

Complete with battery and bulb

10d.

EVER READY SPOTLIGHT POCKET LAMP with focussing adjustment

17284. E.R. No. 9249. A novel type of Ever Ready Lamp fitted with a focussing Spotlight reflector giving a powerful concentrated beam yet small enough to slip into the pocket like an ordinary pocket lamp. In strong metal case, nickel plated throughout,

Complete with battery and bulb

3/6

CHROMIUM SPOTLIGHT TORCH

19821. An efficient 2-cell spotlight focussing torch with highly polished mirror-reflector and lightweight brass case heavily chromium plated. Fitted with a non-rolling octagonal head.

Case only

1/5

Complete with battery and bulb

1/11

SPOTLIGHT TORCH with coloured metallic body

37093. 2-cell spotlight torch, with screw focussing and attractive finish in glowing colours, available in brilliant red or blue shades. Fitted with 2" reflector and special safety switch.

Case only

1/5

Complete with battery and bulb

1/11

EVER READY UNIT CELL TORCH

17202. E.R. No. 2548. A strong and reliable Ever Ready spotlight focussing torch at a price no higher than you would pay for an ordinary brand. It is equipped with a 2 1/4" reflector and takes two standard unit cells.

Complete with battery and bulb

2/6

EVER READY SPOTLIGHT TORCH

17208. E.R. No. 2549. An ideal torch for general purposes. Very powerful yet compact and reasonably light in weight. Fitted with 2 1/4" reflector, octagonal rim and body. Handsome nickel plated finish.

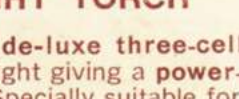

Complete with battery and bulb

5/6

EVER READY THREE-CELL SPOTLIGHT TORCH

17214. E.R. No. 3562. A de-luxe three-cell torch with focussing spotlight giving a powerful searchlight beam. Specially suitable for motorists, yachtsmen and all who require a heavy duty torch. 2 1/4" diameter reflector.

8/6

Complete with battery and bulb

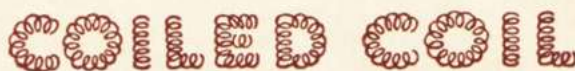

All-chromium finish

You will find a torch useful on all kinds of occasions—when you are mending a fuse or exploring the attic for instance, or if you do much motoring after dark. Curry's range of spotlights and pocket lamps is quite unequalled both for variety and value, and you are sure to be able to find just the type you require at a price to suit your pocket. Drop in at your local branch and ask the Manager to show you a selection.

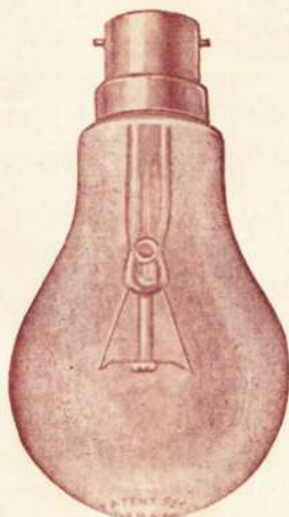

HOUSE LAMPS

OSRAM, MAZDA, CROMPTON

LAMPS ARE BRIGHTER

Coiled Coil Lamps represent a revolutionary advance in electrical design. The filament is first coiled in the usual way, and then coiled again on itself, with the result that efficiency is greatly increased and an additional light output for the same current consumption is made possible. This increase in light varies from 20% in a 40 watt lamp to 10% in a 100 watt lamp. Though coiled coil lamps cost a little more in the first place their cost is saved over and over again in the extra light given.

*Up to 20%
more light
for the same cost!*

known makes

Why buy foreign lamps?

HERE IS A FULL RANGE OF RELIABLE SHILLING LAMPS

by famous British makers

There is no need to buy unreliable foreign house lamps, when you can obtain these first quality British lamps for only a shilling. They are produced by the makers of Osram, Mazda and Crompton lamps, and though not so efficient as coiled coil lamps they will give excellent service. Supplied in pearl only.

CURRYS RAISE THE CURTAIN ON

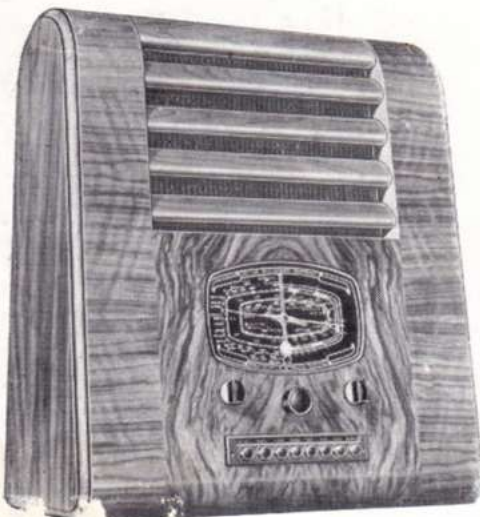

INVICTA MODEL 430
4-VALVE, 4-WAVEBAND A.C. SUPERHET

Here at last is an all-wave set in the luxury class at a price that everyone can afford. Spin-wheel control for smooth and efficient operation—continuous tuning from 13.5 to 2,100 metres (including Trawler band)—a beautifully coloured edge-lighted glass tuning dial for easy station identification—these and many other additional refinements make the Invicta 430 the buy of the year. Hear one at Currys and judge for yourself. **9 Gns.**

Four valves (including Rectifier), 8in. Magnavox Speaker, Piano finish Walnut cabinet.

PRESS BUTTON TUNING—a new radio thrill on this DECCA

MODEL PT/AC
A.C. MAINS ALL-WAVE
SUPERHET

Eight finger-tip buttons, their station names above them, awaiting mere finger-tip pressure, in response to which there is the station of your choice—tuned accurately, noiselessly, and instantaneously: this describes the "Prestomatic" tuning incorporated in this revolutionary receiver. In addition it embodies normal manual tuning, including the short waveband. Handsome hand polished walnut cabinet. **14½ Gns.** Powerful 5-valve superhet circuit

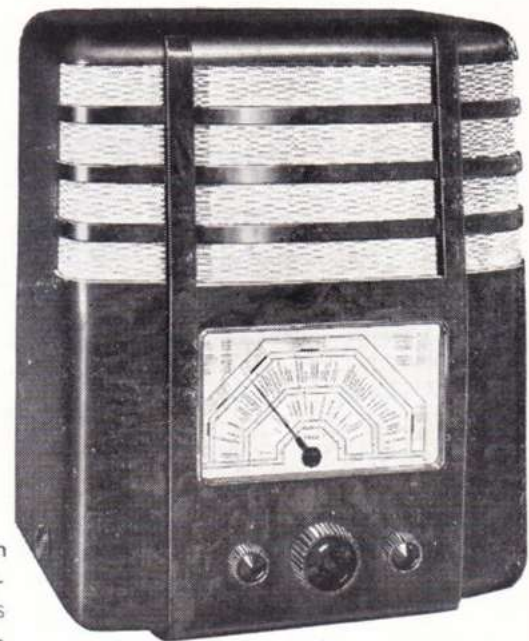

Model PT/U for AC/DC Mains 15½ Gns.

SPARTON MODEL 548T
5-VALVE ALL-WAVE SUPERHET

A high-grade superhet table model with a specially fine and natural tone and capable of long range world-wide reception. The specification includes an extra large three-colour wavelength tuning scale with 79 calibrated stations covering three wavebands, an Electro-dynamic Speaker with extra wide frequency range, and a walnut cabinet of distinctive design and solidly built to avoid resonances. **12 Gns.**

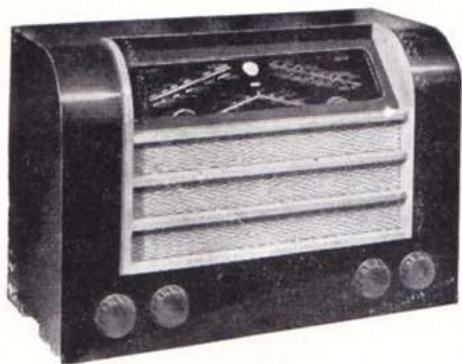

EKCO MODEL A.W.69
6-STAGE ALL-WAVE
SUPERHET

A highly efficient all-wave receiver at a popular price. The powerful circuit includes Litz wound "High Q" coils and fully delayed automatic volume control, whilst an extra large flood-lit panoramic scale, combined with positive slow-motion tuning, makes control the essence of simplicity. The magnificent moulded cabinet, in walnut finish, looks well in any surroundings. **8½ Gns.**

*Dial the Station you want with
the **COSSOR TELEDIAL***

COSSOR MODEL 3592
5-VALVE A.C. MAINS SUPERHET

Here is a brilliant and revolutionary idea—tuning by "Dial" just like the telephone. Any one of 10 stations can be tuned instantly and accurately on the Cossor 3592 by placing the finger in the appropriate hole and rotating the "Teledial." In addition to the "Teledial" an edge-lit wavelength scale with station names is provided for tuning in the ordinary way. Another striking feature of this set is its clever cabinet design: it can be used as a table set in the position illustrated or it can be stood up on end on the floor for armchair operation. And not the least attractive thing about the Cossor 3592 is its extraordinarily moderate price.

10 Gns.

INVICTA MODEL 500
A.C. All-Wave Superhet
WITH MONOMATIC CONTROL

A remarkable new set designed to tune automatically to one of 5 pre-selected stations. In addition there is spin wheel tuning on 4 wavebands and the specification includes such other refinements as a Mains Aerial attachment and a 3 point tone control. An up to the minute Receiver which we can heartily recommend.

£13/19/6

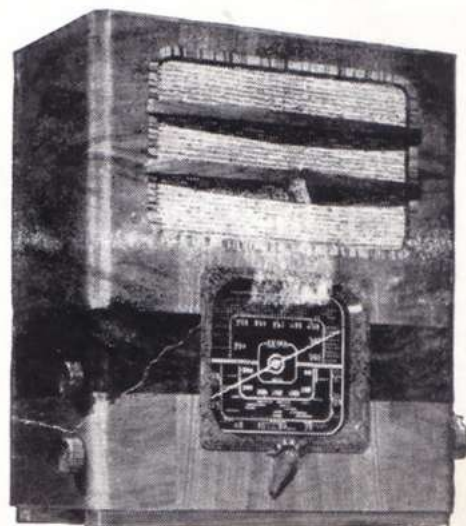

ULTRA MODEL 201
ALL-WAVE A.C. SUPERHET

Just a touch of the finger and a whirl of the comfortably placed tuning knob at the side and you flash swiftly, silently from one end of the world to the other with this latest Ultra masterpiece. Before your eyes is the easiest read dial ever produced by Ultra, pioneers of clock face tuning—a special boon when you are testing this set's exceptional efficiency on the short waves. Reproduction is exceptionally good and there is a

Our special price shows a clear saving of 4 Gns. Hurry and get yours now before we are sold out. **Maker's original list price, 12 Gns. CURRY'S' PRICE 8 Gns.**

RENT and then BUY YOUR RADIO

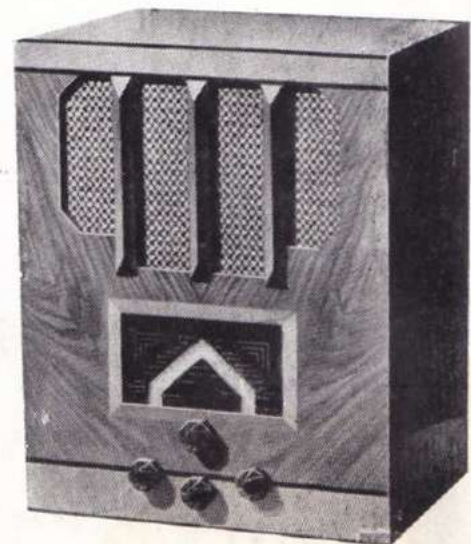

It will pay you to investigate Currys' Rental Scheme, by which you can hire a first class modern receiver for as little as 1/9 weekly without any extra cost whatsoever, the rental payments covering everything, including replacements, valves, service, etc. In addition, you have the option to purchase the set at any time by regarding the rental payments as easy terms and paying the balance in one lump sum.

There is no deposit or installation charge, and you can loan the receiver for as little as you wish, the payments becoming lower and lower as time goes on.

FROM **1/9** WEEKLY

**PYE MODEL QAC2
A.C. MAINS SUPERHET**

Though the price is so reasonable, the QAC2 shares all the characteristics which have made the name of Pye famous. Its fine performance on medium and long waves is matched by its complete reliability and handsome appearance. Other refinements include an illuminated tuning dial and automatic volume control. **8 Gns.**

The Pick of the **RADIOGRAMS, CONSOLES, PORTABLES**

**BEETHOVEN Model 101
Baby Portable**

Weighing only 16lbs. this is the ideal set for the car, the bedroom or the kitchen and is very suitable for use as an extra set to supplement your table model. It needs no external aerial or earth, and can be carried about anywhere, always giving clear and strong reception. The price includes the necessary batteries and a ball bearing turntable is built into the cabinet.

6 Gns.

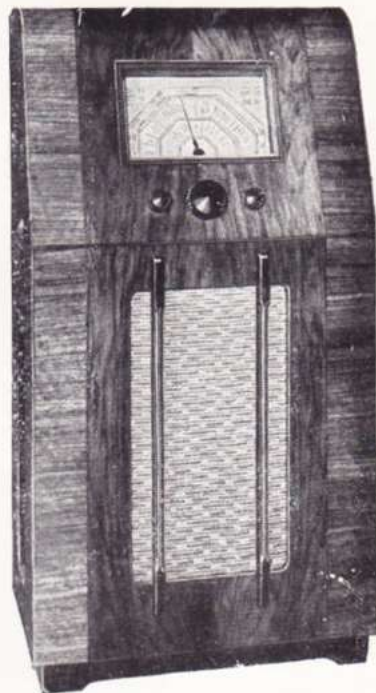

Waterproof baize lined carrying case with shoulder strap 9/6 extra

**ECKO Model
C69
6-stage All-
Wave Console**

A magnificent model in satin-finished figured walnut and an instrument of surpassing merit—truly a credit to any home. Note the extra large sloping tuning panel, which is easy to read and easy to tune from any angle. The highly advanced circuit includes such features as Litz wound "High Q" coils and fully delayed AVC, and gives exceptional efficiency on the short wave-band, as well as the medium and long waves. A recessed speaker panel gives unobstructed sound radiation from the powerful energised moving coil speaker.

11 1/2 Gns.

Free without obligation.**

EASY TERMS?

If you wish to purchase the Receiver out of income ask our Manager for details of Currys' Personal Purchase Plan, the most confidential and trouble free Easy payment system ever devised.

**LISSEN Model 8329
5-Valve All-wave Console
(Illustrated on right)**

This superb Console model is housed in a handsome and well proportioned cabinet of highly polished walnut, specially designed to secure maximum acoustic fidelity. An electro magnetic speaker with augmented bass response and an anti-microphonic chassis also contribute towards the perfect reproduction given by this receiver. The circuit covers 3 wave-bands and includes a band pass filter to ensure maximum selectivity.

£11.19.6

**LISSEN Model 8322
"Monarch" Radiogram
(Illustrated on left)**

Quality all-wave reception with provision for gramophone record reproduction has never before been offered to the listening public at so attractive a price. The handsome contrasting grained walnut cabinet of the Lissen "Monarch" gives true acoustic balance as well as pleasing the eye, and short wave transmissions in addition to those of local stations are received at full strength without requiring an external aerial or earth. Two models are available—for A.C. Mains or Battery operation—at the same price.

£16.19.6
